(3-4) When this exercise is mastered, recommence the preceding one, and play both together four times without interruption; the fingers will gain considerably by practising these exercises, and those following, in this way.

(1) The fourth and fifth fingers being naturally weak, it should be observed that this exercise, and those following it up to Nº 31, are intended to render them as strong and agile as the second and third.
(2-3-4) Before beginning to practice N° 3, play through the preceding exercises once or twice without stopping. When N° 3 is mastered, practice N° 4 and then N° 5, and as soon as they are thoroughly learned play through all three at least four times without interruption, not stopping until the last note on page 6. The entire work should be practised in this manner. Therefore, when playing the numbers in the First Part, stop only on the last note on pp. 3, 6, 9, 12, 15, 18, and 21.
(3-4-5) (1) Special exercise for the 3rd, 4th and 5th fingers of the hand.
(1-2-3-4-5) We repeat, that the fingers should be lifted high, and with precision, until this entire volume is mastered.
