### About the artist

I'm a software engineer. Basically, I'm computer geek who loves to solve problems. I have been developing software for the last 25+ years but have recently rekindled my love of music.

Many of my scores are posted with individual parts and matching play-along however, this is not always practical. If you would like individual parts to any of my scores or other specific tailoring, please contact me directly and I will try to accommodate your specific needs.

His sacred and instrumental music had an enormous influence on the music of the 18th and 19th centuries. His use of counterpoint and the immense complexities of his compositions are still studied and performed today (see online)
