

Jean-paul Verpeaux

France, BOURGES

NOEL BERRICHON (Opus vpx-557)

About the artist

The music fascinates me since my childhood. I unfortunately studied only the music theory and took some rare piano lessons, also I think I am a self-taught musician. When 15 yo I became the organist of my parish near Bordeaux, then organist in some dancing bands. In the 80s, my electronics engineer's job helped me to understand the principles of synthesizers and to share my knowledge by means of articles in magazines, books and courses which I gave within the academy of Chinon. My musical tastes are highly varied because they go from the baroque organ to the electroacoustic music, via the modern instrumental music with synthesizers. Today retired, I like dedicating my time to the composition or writing softwares for organists.
