Arranger, Composer

Italia, IMPERIA Frazione Torrazza

## About the artist

He studied classical piano and music theory for more than ten years, in Sanremo, with Lady Adalgisa Mantovani (Ventimiglia 1889- Imperia 1976), graduated at the Conservatory of Turin in the first decades of the twentieth century. Later he attended the history of music lessons taught by Professor Leopoldo Gamberini (Como 1922 - Genoa 2012) in the seventies at the University of Genoa. His interpretations have hitherto been limited to the private sphere. After a period of inactivity, he started playing again for his wife Anabell (from what the pseudo "An & An"), adapting several pieces to an easier level of execution and listening. In recent years he has also dealt with small conceptual compositions, habitually seasoned with irony.

*Another commentary on a topic that someone will not reach new*

*"These are contrails, I'm sure. Nothing but water vapor.*

*I know for sure that chemtrails don't exist.*

*I am a senseful person and I **do believe** in contrails, as I firmly believe in everything they tell me to firmly believe.*

*I therefore firmly believe in the diabolical nature of carbon dioxide which, as it has been discovered for some years now, is the true cause of all the ills on the planet. This is why I started to breathe slowly, to do my part as a responsible citizen.*

*But I don't believe in those who claim that trees serve to make the air cleaner. I think they cheat us.*

*I am happy when I see trees being cut down. - How beautiful! - I say then - There is more light! -"*

*"Someone believes in chemtrails ... If this thing was done by a person of my party, I would propose a mandatory medical treatment..."*

*(Public declaration of a future European chief of government, December 2013)*
