A Christmas tree is a decorated tree, usually an evergreen conifer such as spruce, pine, or fir or an artificial tree of similar appearance, associated with the celebration of Christmas. The modern Christmas tree was developed in early modern Germany (where it is today called Weihnachtsbaum or Christbaum), in which devout Christians brought decorated trees into their homes. It acquired popularity beyond the Lutheran areas of Germany, during the second half of the 19th century. Modern Christmas trees originated during the Renaissance. Its 16th-century origins are sometimes associated with Protestant Christian reformer Martin Luther who is said to have first added lighted candles to an evergreen tree. The Christmas tree is frequently traced to the symbolism of trees in pre-Christian winter rites, wherein Viking and Saxon worshiped trees. The first recorded Christmas tree can be found on the keystone sculpture of a private home in Turckheim, Alsace (then part of Germany, today France), dating 1576. Since the early 20th century, it has become common in many cities, towns, and department stores to put up public Christmas trees outdoors. In some cities, a Festival of Trees is organized around the decoration and display of multiple trees as charity events.
